Skills

Hard Skills

- HTML, CSS, JavaScript
- Node.js, Express.js
- Python, C (Intermediate)
- PostgreSQL, MySQL
- React.js, bootstrap 5, EJS, jQuery
- Docker, postman, Firebase

Soft Skills

- Flexibility & Adaptability
- Positive Attitude
- Time Management
- Teamwork and Collaboration

Language

- Thai (Native)
- English (Fair)

Education

King Mongkut's Institute of Technology Ladkrabang Prince of Chumphon Campus

Bachelor of Engineering, Major Computer Engineering, GPA: 3.30
2022 - Present

Satree Thungsong School

Science and Mathematics Program
GPA : 3.66
2019-2021

Projects

Game Store -- E-commerce Website

- We will employ Figma for frontend design and utilize React.js and Bootstrap 5 to develop a visually appealing and responsive website.
- The backend will be developed using Node.js and Express.js to interact with a PostgreSQL database and create APIs to handle client-side requests

Smart Rubbish Bin -- IOT responsive website

- A Smart Rubbish Bin powered by IoT technology to monitor trash levels, track bin locations, and measure air quality inside the bin. The system provides real-time data through a beautifully designed and user-friendly dashboard.

Portfolio -- Responsive Website

- This portfolio website is built using React and deployed on Firebase. It provides a seamless user experience across various screen sizes and allows for personalized color schemes, including primary and theme colors.
